PROFILE

ELMON S.A. is a leading Body Armor and Tactical Gear manufacturer, registered in Athens-Hellas since 2005. We specialize in the design development and manufacture of high-end body armor solutions for law enforcement and militaries worldwide. We use only the world's finest materials from our long term partnerships of international market's top brands.

ELMON products meet the highest standards of quality as a result of our continuous investment in research and quality enhancements. In order to ensure this high standard, ELMON has invested in new production capacity in our new owned premises (30.000m²) in Paiania-Attica and 5.000m² in Markopoulo- Attica, where we have gathered all our production and R&D activities together.

The security of our facilities has certificate of classification of the level on National secrecy -NATO SECRET- EU- SECRET- according with the provisions of national security regulation.

The quality of our production is according to ISO 9001, BA 9000, ISO 14001, AQAP 2110. ELMON S.A. has been a TRACE SME Member since 02/01/2024. As NATO manufacturers with CAGE Code G-1454 and NSPA main supplier we have more than 150 products codified with Nato Stock Numbers. ELMON is also member of Defense Material Manufacturers of the Ministry of Hellenic National Defense / GENERAL DIRECTORATE OF DEFENSE INVESTMENTS AND ARMAMENT (GDDIA).

EDITORIAL

The meaning of the word "Elmon" is "Helmet". It is symbolized by the Hellenic Corinthian helmet (500 BCE) which we use as our emblem.

For the Hellene (ancient Greek) citizen, his own armory was much more than just weapons to use. It represented his view of the world, his beliefs. It was an extension of himself, a representation of his ideas and will.

We, following the exact same mindset, have created in 2005 what is today one of the leading armor solutions for the safety and protection of the human life.

This is our belief. Elmon, beyond all, is to protect.

Ioannis (John) Galanis
Founder & Chairman

ACCREDITATIONS - CERTIFICATIONS

Our goal throughout the years is the protection of human life.

Quality is the main element to every single step we take during our research, development and production.

In order to assure the end-user for our quality consistency, all of our products are being tested and certified by accredited laboratories.

These laboratories are independent third parties, accredited by national governments to conduct tests according to international standards (EN, ISO, NIJ etc)

Furthermore, our production is certified for quality assurance under ISO 9001, BA 9000, ISO 14001, and AQAP 2110 (Ed. D).

Elmon tactical products have been officially approved from the SPECIAL PARATROOPER SECTION "ETA" of the GREEK ARMY SPECIAL FORCES.

ISO 9001:2015 Certified for Quality Assurance for Production

ISO 14001:2015 Certified for Environmental Management for Production

AQAP 2110 (Edition D Version 1 June 2016) Certified for NATO Quality Assurance Requirements for Design Development and Production

BA 9000 BUREAU VERITAS Certification

MEMBERSHIPS

ELMON S.A is a member of major local and global Defence Organisations.
Also certified manufacturer by the Hellenic MOD.

This comes as a result of us being loyal to our founding values of hard work and honesty for providing the highest possible levels of protection to human life.

RAW MATERIALS

We continuously research for technological solutions, aiming to reduce the weight and increase the level of protection and comfort for the end user.

Therefore, we chose to use only the world's finest materials, due to our long term cooperation with market's top brands.

The raw materials used in our production, provide the best protection and the high-tech fabrics keep the soldier cool and dry in hot and humid conditions.
